

Glady & Co.

# Werribee Zoo Day Program

28TH JUNE

---

Come along for a day of connection, wildlife, and fresh air as we explore the Werribee Open Range Zoo and nearby nature spots. This flexible group day program is designed to be fun, inclusive, and accessible—perfect for both new and returning participants.

Experience the thrill of the safari tour, get up close with animals from around the world, and enjoy the open landscapes and local parks.

We'll also make time to relax, share lunch, and soak in the natural surroundings together. This outing supports a range of NDIS-related outcomes, including social interaction, observation, money management, independence, and physical activity—all while enjoying a supportive community setting.
