

CITY PROGRAM

Gaming & Connection

9TH - 12TH OCTOBER

Join us for a city-based Inspire Program with the exciting opportunity to attend PAX, Australia's biggest pop culture and gaming convention!

This program provides a supportive and inclusive environment where participants can explore their interests in gaming, technology, and pop culture, while also developing real-world social and community participation skills. With both single-day and 4-day program options available, participants can choose the level of involvement that best suits their goals and support needs. Being in a space that reflects your passions can build confidence, boost social connection, and support your personal development. This experience encourages skill-building in navigating public spaces, budgeting, communication, and time management as you plan your day, follow the event schedule, and choose what to attend. You'll also have the chance to practice independence, self-advocacy, and community engagement, all while working towards your NDIS goals.

Confidence in public spaces
Budgeting and money choices
Gaming culture engagement

Independent decision-making
Social connection
Problem-solving skills
